papillon technology  
the future is calling

## See what our customers say...

*"We considered a trunk side call recording solution but accessing recordings was a nightmare compared to Call Recorder."*

*"With all the jargon and acronyms used in the computer industry today, Call Recorder has proved an excellent training tool for our new staff. The ease of access to recordings is priceless."*

## The Complete Call Recording Solution for HEAT®.

Ever wished you had recorded a call with a difficult client, or kept a **detailed record** of the resolution to a complex issue? Well, now you can with Call Recorder. Just imagine **instant access** to some crucial detail overlooked in an intricate technical dialog.

Like all Papillon Technology computer telephony products, Call Recorder is seamlessly integrated with HEAT®, making it straightforward and easy to use.

Call Recorder hardware

Compact, Discreet, Easy to Install

A screenshot of the Call Logging software interface. The main window shows a call detail record for a call to 'Papillon' (Call # 00000035). The customer information includes 'Customer ID: Papillon', 'Contact Name: Nick Aldridge', 'Phone/Ext: 01992560488', and 'Company Name: Papillon Technology'. The 'Cause' is listed as 'S/W Conflict'. The 'Technician' is 'Karl' and the 'Source' is 'Phone'. A note in the notes section says 'update antivirus software and run'. The bottom of the window shows a timeline with 'Received Karl' at '08/07/2004 14:19:56' and 'Closed' at the same time. A red callout box points to the attachment bar with the text: 'Just click on the calls shown on the Attachment Bar to instantly replay any of the voice recordings with your clients!'. Another red callout box points to a link at the bottom of the screen with the text: 'Listen to any Call Recordings at any time – just click on the Link !'
