papillon technology
the future is calling

See what our customers say...

"We considered a trunk side call recording solution but accessing recordings was a nightmare compared to Call Recorder."

"With all the jargon and acronyms used in the computer industry today, Call Recorder has proved an excellent training tool for our new staff. The ease of access to recordings is priceless."

The Complete Call Recording Solution for GoldMine.

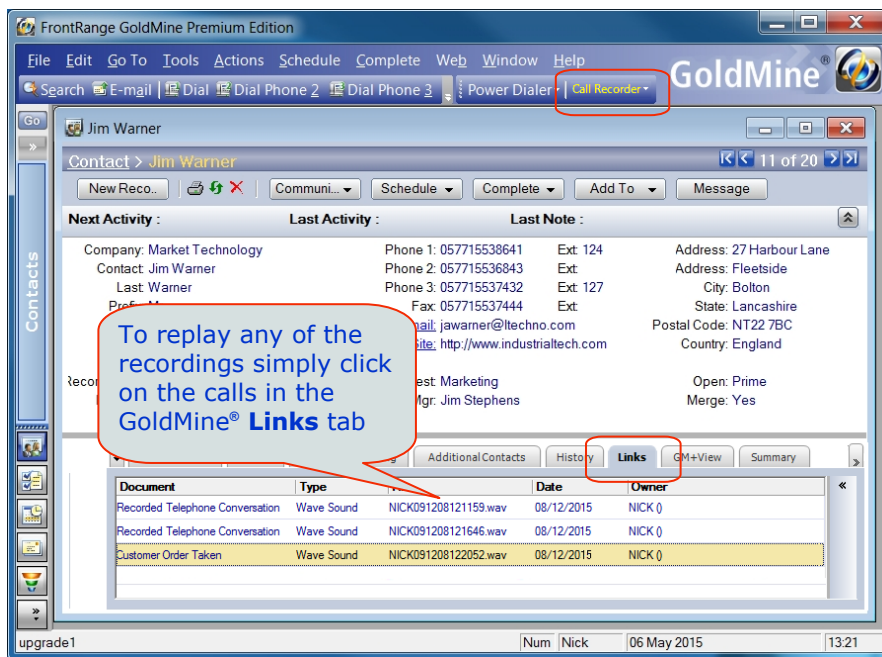

Ever wished you had recorded a call with a difficult client, or kept a **detailed record** of a difficult negotiation? Well, now you can with Call Recorder.

Like all Papillon Technology computer telephony products, Call Recorder is seamlessly integrated with GoldMine®, making it straightforward and easy to use.

Recording your telephone calls is a breeze. Simply click the tab in GoldMine® or the Call Recorder icon in your system tray.

Call Recorder hardware
Compact, Discreet, Easy to Install

You can choose to record every call or just record the calls you need. Recordings are assigned a unique file name, compressed, and **automatically linked** to your contacts GoldMine® record via the Links tab.

Optional settings allow you to add descriptive References and Notes for recorded calls and even to Schedule Follow-Up Actions as a result of the call.

Call Recorder for GoldMine® will work with virtually any digital or analog telephone handset and is a fraction of the cost of traditional call recording technology.
